

Hello, here I am in Italy, in Diano Marina , a nice, friendly resort facing the Mediterranean sea. In 200 B.C. the Romans founded here LUCUS BORMANI: the sacred wood of Baorman, the pagan God of waters. Later this area was devoted to Diana the Goddess of hunting. And after her, the name of the place of a lot of villages in this area; Diano Marina, Diano Castello, Diano Serreta, Diano San Pietro and others.

How do I know this? But obviously because I revised History at school with my Italian friends..

After studying a little P.E., so everybody out of class for a basketball match.....and it was super! Here I am with the two captains

It's hard work running and facing the other team but I'm the best and, when the match

finishes we are all tired but very happy too so.....a smile for a photo!

After having fun, a geography lesson ; it's my time and my Italian friends listen carefully to me while I tell them about my trips.

What can I say...really a nice holiday..SEE YOU SOON! BYE BYE ITALIA

CIBOULETTE

Hello friends!

Here I am at the kindergarten "l'Aquilone" in Diano Marina

In this school, I spent some nice and funny days with these little friends.

I tell you about my week:

Monday: date and "let's call the register"

I tell about my long journey started in Bordeaux

Tuesday: "what's the weather like?"

we paint and prepare the poster about the city  
Wednesday:

to the theatre to see "Pimpa Red Riding Hood", to know Pimpa, a character really loved by Italian children: she is a nice red and white dog

How exciting !!

We were on stage. Here we are with the actress.

Thursday:  
we play with Tangram

Friday :

in the library, we feel excited in the " house of books"  
And finally .... a delicious lunch "gnocchi with pesto"

My week is over and I'm ready for another adventure ....
