

The journey of Ciboulette

Ciboulette travels in all countries of the HOME project. She left France with Menthe her little baby and with her luggage.

The turtles went to Turkey in Istanbul. Afterwards they went to England, to the capital, London. Then they went to Diano Marina in Italy. Finally they went to Spain in Mijas. In all the countries they met pupils, mistresses and sent us postcards. Ciboulette brought back memories of each country in his bag.

Ciboulette and Mint did not want to stay in England because they already knew this country. They also wanted to go back to France to see us again before we left CP. They would be missed if we did not see them again. In November they will go to Hungary in Budapest.
